

School policy for snow days...2011-12

Presuming roads are navigable and the weather is not outrageous, please follow these procedures, as we have in the past, regarding "Snow Days" and practices.

1. Practices must be voluntary. They cannot be required.
2. No practices may begin before 12:00 noon.
3. Everyone must be out of the building by 4:00 PM.
4. Make certain all of your student-athletes have transportation home.
5. Please remain in the building until your last student-athlete has departed.
6. If you are the last one to practice please make certain the building is secure before leaving.

Thanks very much for your help in regards to the safety of our kids.
